## GERMAN DRIVE LOSES PUNCH, LONDON HEARS

Russian Army Launches Counter Attacks, Slows Up One Column

REPORTS CONTRADICT CLAIMS BY GERMANY

Moscow Untouched As Red Army Reinforcements Get Into Battle

(By Associated Press)

In the face of Germany's claims that her Russian sweep had carried within 100 miles of Moscow on the west and south, Russian dispatches from that blood-bathed front declared today that one German thrust had been slowed down and that the Red army had launched counter attacks at several points.

Authoritative sources in London asserted that the German offensive—now in its 12th day—had lost momentum as compared with the speed of the first two or three days and added that it was quite possible that the German drive might be stopped 70 or 80 miles short of the Russian capital.

The limit of human endurance and the wear and tear on the thousands of tanks and armored cars may intervene to stabilize the Russian-German front with Moscow untouched as the first snows of winter blanket the plains, perhaps smothering Adolf Hitler's hope of a pre-winter victory.

Aided By Reinforcements  
The Russian dispatches said that the German drive had been slowed particularly in the direction of Vyazma which the Germans have recently passed and already in the process of being mopped up. Vyazma is 125 miles west of the Russian capital.

One of the Russian counter-attacks, made possible by fresh reinforcements, was said to have recaptured a town near Bryansk, 210 miles southwest of Moscow, in the region of the Germans' drive on Moscow from the south.

Another counter-attack was launched north of Orel and east of Bryansk. Orel was lost to the Germans a week ago.

Despite the Russian resistance, a dispatch to the Moscow newspaper Pravda acknowledged that the Germans still were moving on Moscow and the only question was whether the drive could be robbed of its momentum short of the goal.

Reinforcements were streaming steadily into the Russian front, it was said—fresh, well-equipped regulars who already had been under German fire but who had been rested for their new test. German reinforcements maintaining a numerical superiority for the invaders, however, also were reported.

The dispatches to Moscow pictured the morale of the Russians as high. All wore warm winter uniforms with long gray greatcoats and fur hats in preparation for the winter at hand. There was little question that the greatest test of the war was impending.

The announcement of Russian counterattacks was issued several hours after the Russians themselves testified to the gravity of their situation with disclosure that they had given up Bryansk, a key railroad junction 220 miles southwest of Moscow.

## DEATH CLAIMS HARDING AID

H. M. Daugherty, "President Maker," Dies In Sleep At Age Of 81

(By Associated Press)

COLUMBUS, Oct. 13.—Harry M. Daugherty, the one-time township clerk of Washington Court House who became a "president maker," died yesterday at the age of 81.

Bedfast for several months, the former attorney general of the United States succumbed in his sleep to congestive heart failure. Just a year ago this month he suffered two heart attacks and a siege of pneumonia, but rallied from them.

Funeral services will be held at 1:30 p. m. Tuesday, with the Rev. James Thomas, pastor of the Broad Street Methodist church officiating. Burial will be in the family mausoleum at Washington Court House cemetery.

He was an intimate associate of Warren G. Harding, and predicted the Marion, O., publisher's nomination for president in 1920. After participating in a conference in which Republicans decided upon Harding, Daugherty took charge of the campaign and saw his candidate elected.

Still unfinished at Daugherty's death was a book in which he planned to explain asserted political attacks upon him. The Teapot Dome oil scandal and other alleged irregularities of government during the early 1920's were involved in the story.

Daugherty spent three years as attorney general, resigning in 1924 at the request of President Coolidge, while a senate committee investigation of alleged misconduct in office was under way.

For the next seven years, Daugherty defended himself against allegations involving the Teapot Dome case, involving bureau irregularities.

## SALEM MAN NAMED TO KIWANIS POST

Ohio Kiwanis club members concluded their annual state convention at Columbus Saturday with the election of officers for 1941, at which Dean Clyde Hissong of Bowling Green State university was elected district governor.

Dean Hissong succeeds Truman Landberg of Cincinnati.

F. J. Wise of Salem was elected lieutenant-governor for the Tenth division, representing 10 clubs in Columbiana and Jefferson counties. He succeeds Ted Hersh, superintendent of schools at East Palestine.

The new officers will assume duties Jan. 1.

G. W. McKee, president-elect of the Salem club, and Dr. George P. Jones, vice president-elect, were delegates to the Columbus rally.

## Columbiana Man Is Owner Of Fine Breed Which Is Prized For Rarity

Purple cows and pink elephants go with a fertile imagination or a hangover, but over at Columbiana there's a pure white colt with china blue and white eyes which is very real indeed.

In fact there probably isn't a more lively animal in the country-side than Topper Nardi, a 18-month-old registered Albino owned by John L. Hutson.

Topper, who is as beautiful a piece of horseflesh as one could hope to see, is the result of the selective breeding of the strange and irregular Albino strain.

Albino horses are rare and their history is clouded in mystery. Officials of the American Albino Horse Club, Inc., frankly admit that little is known of their past. All that they can be sure of is that they are not of the same family as the white Arabians, with which they often are confused.

Mr. Hutson is the only registered breeder of Albinos in Ohio, and one of only 15 in America. He took up Albinos as a pastime two years ago following his retirement from the undertaking business at Salineville because of poor health.

He acquired a fondness for the breed a quarter of a century ago when he used a pair of Albinos to draw one of his hearses.

Nine motorists were arrested by state highway patrolmen over the weekend.

Fined here by Mayor Norman Phillips were Thomas Brady of R. D. 4, Alliance charged with speeding, \$25 and costs; Roscoe Justus, Fort Wayne, Ind., speeding, \$10 and costs; William Ellis of Cleveland, speeding, \$25 and costs.

Hugh Smith of Columbiana, charged with speeding, was fined \$10 and costs by Mayor Lloyd Culler at Washingtonville.

Clyde Little of Cleveland, arrested on a reckless driving charge, was fined \$10 and costs at Edinburg.

Clyde Knight of Pittsburgh and Joseph Furguella of Monaca, Pa., charged with reckless driving, were fined \$10 and costs at East Palestine.

Marvel Hicks of Cleveland Heights charged with failing to obey an automatic traffic signal, was fined \$5 and costs by Mayor George Wilson at Canfield.

Philip Spalla of Youngstown, arrested on a charge of speeding, was fined \$10 and costs at Canfield.

## 30,000 TANKS FROM BRITAIN, U. S. IS NEEDED

London Press Makes Demands Following Beaverbrook's Appeal

MILITARY ASSISTANCE ALSO RECOMMENDED

Urgent Need For Tanks To Combat Germans Stressed By British Leader

(By Associated Press)

LONDON, Oct. 13.—Urgent and pointed demands for Britain and the United States to help embattle Russia with military action as well as supplies came from sections of the London Press today after a call by Lord Beaverbrook for British-American production of 30,000 tanks.

A blunt statement by the tabloid Daily Sketch said that "the sooner Americans are in with the Russians and ourselves, mingling their blood and sweat and tears in a common drain, the sooner the war will be won."

Still another idea was contributed by the Sunday Chronicle in an article suggesting a joint British-American guarantee of Russia's far eastern frontier against Japanese attack to release nearly a half million Red Army troops there.

The help-Russia-now campaign was given a boost by L. S. Amery, secretary of state for India, who said in a speech:

"We must take every risk to help Russia. It is up to us and America to find ways and means to overcome all obstacles to give while there yet is time the relief Russia so sorely needs."

Lord Beaverbrook, minister of supply and head of the British delegation to the Moscow conference on aid to Russia, said in a Sunday broadcast that Britain and the United States had agreed to supply practically everything the Russians had asked.

He stressed the urgent need for tanks, saying the Russians estimated the Germans had 30,000 tanks for their eastern campaign with 14,000 thrown into the present giant offensive.

The supply chieftain did not say how many tanks the Russians requested, but he did say the British and American delegations in Moscow had promised "all that at present we can give."

Beaverbrook admitted that Red armies today are in "dire peril" but declared their morale unbroken.

## MILEY SLAYING SOLVED TODAY

Captured Ex-convict Says He Was Involved In Shooting Sept. 28

FORT WORTH, Tex., Oct. 13.—Kentucky's most puzzling slaying, that of golf star Marion Miley and her mother, appeared solved today with the confession of Tom C. Penney that he participated in the holdup-shooting in the Mileys' Lexington, Ky., apartment Sept. 28.

The 32-year-old ex-convict from Lexington said in a signed statement he and Robert H. Anderson, Louisville night club operator, shot the women in a scuffle when they resisted the robbery attempt.

Penney's statement was given Assistant District Attorney Hendricks Brown yesterday.

It led to immediate arrest of Anderson in Louisville on a murder charge. He denied complicity.

A Lexington newspaper carrier, Hugh Cramer, gave police a description and license number of a sedan he saw the night of the slaying.

## TWO ARE INJURED WHEN CARS COLLIDE

Donald Clark, 33, of Cleveland, and his wife, Helen, 27, suffered lacerations when their automobile and another, operated by Morgan Swingle, 39, of Hooktown, Pa., collided on the Lisbon road at 11:15 p. m. Sunday. They were treated at the Central Clinic.

Edith Tunning, 39, of Uniontown, Pa., escaped unhurt when she lost control of her car and it hit an abutment on Route 14, four miles north of Deerfield, at 3:30 p. m. yesterday, state highway patrolmen said.

No one was injured when machines driven by Herbert Hupp, 45, of Akron, and Albert Reynolds, 26, of New Brighton, Pa., tangled on Route 14, just west of Unity, at 2:15 a. m. Sunday, the patrol reported.

## FOUR INJURED AS ENGINES COLLIDE

Streamliner Crashes Into Freight Today On Siding Near Chillicothe

(By Associated Press)  
CHILlicothe, Oct. 13.—The "National Limited," streamlined passenger train of the Baltimore & Ohio, slid into the locomotive of a freight train at a siding 24 miles east of here in Jackson county early today.

At least four persons were injured, none seriously. The brakes of the streamliner's diesel locomotive were locked as the crash occurred. The following were brought to hospitals here:

John Phifer, 47, of Miami, Okla., representative of the federal Indian service; head lacerations;

Edward Lowery, 35, of Louisville, Ky., a dining car waiter; head injuries;

Gilbert Howard, New York City, a waiter; bruises and badly shaken;

C. A. Donnels of Chillicothe, conductor on the limited, who was bruised but refused hospital treatment.

The train, enroute from New York to Cincinnati, was not believed to have been damaged extensively. The engine was reported partially derailed, while all cars remained on the track.

A railroad spokesman said the passengers were shaken up as the airbrakes of the train were applied suddenly. The train had come almost to a stop when its engine struck the freight locomotive.

About three hours later the diesel was replaced with a steam locomotive and the limited continued on its way to Cincinnati. The diesel's engineer was Nolan Rice of Chillicothe.

## Alaskan Explosion Kills Five Soldiers

SITKA, Alaska, Oct. 13.—An explosion of 43,000 pounds of dynamite at the Sitka naval air station yesterday killed five soldiers and a marine and injured at least 15 other persons.

The force of the blast broke windows in Sitka, three miles away on Baranof island, and several civilians, including members of a church congregation, were cut by falling glass.

Navy officials said a grass fire touched off the terrific explosion. The six who were killed were members of a fire-fighting crew which rushed to battle the blaze just as the flames reached an underground magazine where the dynamite was stored.

A naval board of inquiry was convened to investigate the fire and the resulting explosion.

Army men killed in the blast were listed as Capt. Francis C. Allen, from Kentfield, Calif.; Pvt. Ralph E. Kirkbridge, Los Gatos, Calif.; Pvt. Frank E. Hayton, San Francisco; Pvt. Albert A. Spurling, Everett, W. Va.; Hedley Eastabrook, rank and home address not given. The Marine was Pvt. Thomas A. Baskom, home address not given.

VITAL TO OUR OWN DEFENSE, IS PLEA

Claim Ban On Merchant Ship Arming "Dangerous Restriction"

(By Associated Press)

WASHINGTON, Oct. 13.—Secretary Hull and Stimson joined today in urging Congress not only to repeal the prohibition against arming merchant American ships but to permit them to enter combat zones in the interest of expediting delivery of lend-lease goods.

War Secretary Stimson, who followed Secretary of State Hull to the witness chair before the house foreign affairs committee, recommended immediate repeal of the ban on arming merchant ships.

"I believe that the repeal of this humiliating provision of law would not only conduce to regaining our self-respect upon the ocean," Stimson said, "but that it would materially promote the safety of the vessels which we are now sending out and the safe handling of the munitions which Congress has decided to make available to the nations whose defense is vital to our own defense."

Repeal Is Urged  
"I recommend its immediate repeal."

Stimson added that the ban on arming merchant ships was not the only "dangerous restriction" in the neutrality law.

Stimson testified in his opinion the national defense of the United States would be far more secure if the combat zones were opened to American ships "and we honestly implemented the congressional policy of the lend lease act by undertaking to make delivery in our own vessels of these munitions directly to the ports of the countries for which they are intended."

"The dangers which we should thus incur in my opinion," he said, "would be far less than the perils we probably shall incur if we fail and fail to carry out the purpose of the lend lease law and make sure beyond peradventure the safety of those nations which are now fighting a desperate battle against our common enemy."

Declaring a large percentage of the ships being built in American yards for the lend-lease service are likely to be sunk by German submarines, Stimson said that the restrictive provisions of the neutrality law are "certain to greatly increase these losses."

Hull earlier had told the committee that the United States "cannot turn and walk away from the steadily mounting danger" of the Nazi military campaign of "world conquest."

## NEW DRAFT QUOTA TO AFFECT 21 HERE

District Youths Face Induction Next Month; 38 Boys Leave Friday

Twenty-one Selective Service registrants of the Salem draft board will be affected by Ohio's 30th draft law, issued today. The men are included in a group of 3,512 white and 103 Negroes who will be inducted into the Army from Ohio between Nov. 3 and 24.

The new call came as 38 selectees from the Salem district prepared to abandon civilian pursuits for induction this Friday.

Included in the new call issued today are 11 men from the draft board No. 1 in East Liverpool, and 23 men from the Draft Board No. 3 at Lisbon.

The number of Ohioans already inducted into service totaled 44,999 on Sept. 27.

## BRITAIN'S BUSINESS

The American coholders who would like to see Great Britain invade the continent and are disappointed because nothing is being done to relieve the staggering Russians have supporters in the United Kingdom, it seems. Perhaps all of them share the same loss of memory.

The only nation in the world theoretically capable of conducting an invasion that would be anything more than a suicide expedition is Germany, which still hasn't been willing to take the chance against Great Britain. The British, having groaned over the fate of previous suicide expeditions to Norway, France and Greece—and with good cause—because nothing was accomplished, have nothing to gain by launching another one.

For the sake of morale they may attempt some raids on a larger scale than anything previously tried. The cumulative effect of a whole series of such raids might be considerable. But it would be impossible to create a cumulative effect in time to do the beleaguered Russians any good. The only thing that can save them is the force of their own arms, with perhaps a lucky break soon in the weather. Moreover, the same thing that makes the English channel bad water for the Germans to cross from this time of year on makes it equally bad for the British.

Probably a lot of futile disappointment could be averted if two assumptions were to be made. One, that the British, themselves, are the only qualified judges of their own battle tactics. Two, that if they are good judges there will be no more token expeditions like the one that was wiped out at Crete.

## PRIORITIES FROM THE TOP DOWN

A new and more direct approach to the priorities problem seems to be the underlying purpose of orders converting the washing machine industry to defense production and virtually barring further non-defense construction in key areas.

If continued, orders of this kind would turn the existing priorities procedure upside down. Instead of the government's needs being given preference in the scramble for material, all needs other than those of the government would be excluded from consideration.

The government would take what it wanted and let all others scramble for the surplus, if any. As it is now, the purchasing agents trying to get material for government work must scramble not only in competition with one another but with purchasing agents for non-government work.

It would become, in a word, a process of allocation, in place of a process of priorities. When the government had what it wanted, scrambling would be permitted, but not until then. For the purpose of getting things done fast, without regard to the incidental consequences, it would be an improvement. At least it indicates that the government is not wholly resigned to smothering to death in the red tape that surrounds priorities.

## ORDER OF THE DAY

There is one passage in Adolf Hitler's momentous order of the day starting the climactic battle of the Russian campaign that defies comprehension. After declaring to his soldiers that they have seen poverty in Russia instead of a "paradise of farmers and workers," Hitler says: "This is a result of nearly a 25-year-long Jewish rule which, as bolshevism, is basically similar to the general form of capitalism."

This was part of the dictatorial pep talk delivered to hundreds of thousands of young Germans being sent into what may prove to be the bloodiest battle of all time. It was uttered for the sake of their morale. Almost in the same breath that he mentioned the poverty of Russia, Hitler spoke of the gigantic Russian war industry and "vast quantities of foodstuffs, fuel and munitions." And it was not so long ago that Hitler was regarded—and seemed to regard himself—as the defender of capitalism against Communism, which he now says are one and the same thing.

There is no answer to these perplexities, none whatever. Hitler's version of what constitutes capitalism and Communism differs only in the degree, not the kind, of confusion that covers the whole subject. Certainly it is as comprehensible as the loosely defined terms of democracy, which lately have been expanded almost but not quite enough to take in Russia.

## LOU CAN'T BE BLAMED

Whether Lou Nova's touted mysticism before his slapping down by Joe Louis was touted exclusively by press agents or had something behind it is of no importance now. His manager says yoga's in the ascendant. From now on, the big fellow will be earthy and materialistic like Joe.

Well, Nova shouldn't have too many personal regrets. His plight is symbolic of the big heartache of the age. Nova was only one of millions who hoped to do a tough job the easy way by mental concentration, incantations and seemingly attitudes. It has been a tough awakening for them, too. From now on there's nothing in sight but hard work, perspiration, aches, pains and drudgery while they make up the time Hitler's Germany gained on them while they were fooling with yoga.

## AN JUSTICE

While it is not the kind of thing that makes sensational reading, Judge Francis S. Caffey's ruling that Aluminum Company of America is entitled to dismissal of a government anti-trust suit against it is monumental enough to be some kind of a landmark.

In the first place, the defendant was a \$243,000,000 corporation. In the second place, the New Deal plainly was out to draw blood. In the third place,

the trial ran from June 1, 1938, to August of last year. More than 58,000 pages were put into the record. When Judge Caffey started to give his opinion to an expectant audience in the United States district court in New York City he knew it was going to be long but had no way of knowing it would take him 10 days to read what he thought about the New Dealers' attempt to draw the blood they were after.

What he had to say—and this is the most monumental of all the aspects of this strange case—is that someone in the New Deal went to a lot of trouble and spent a lot of the people's money to make a judge say no in 170,000 words. There will be, of course, an appeal which should be wound up, if nothing interferes, by the halfway point in the 20th century.

## THE STARS SAY:

For Tuesday, October 14

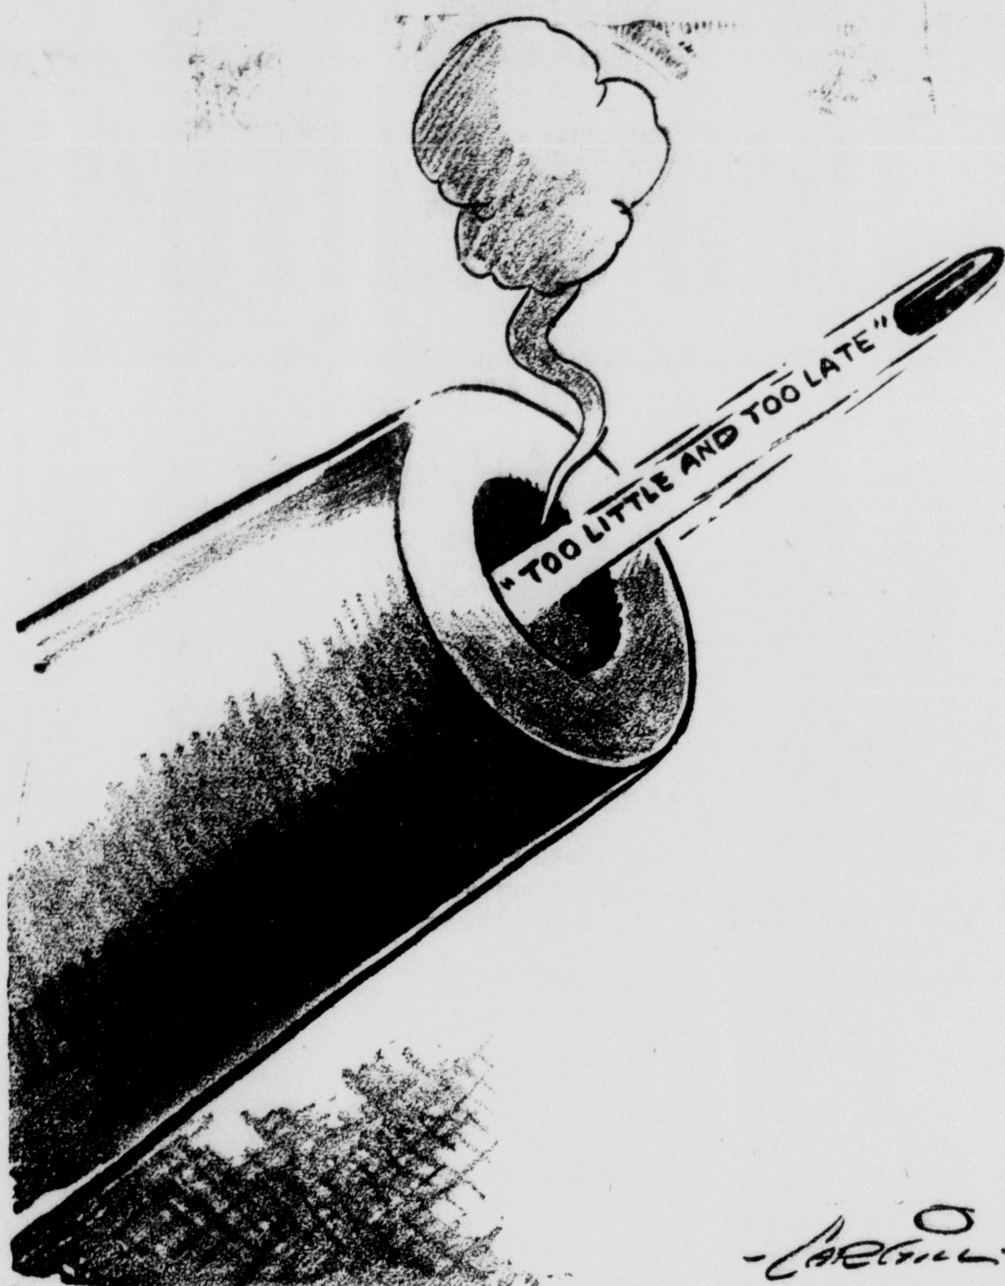

A PARTICULARLY lively and progressive day is predicted from the astral and mutual configurations. All affairs may be expected to move at high tempo both in a social and business way, with probably an unusual tax on expenditures. Some prudence and thrift should be exercised in handling of funds. Friends and relatives may figure in promoting happiness in the way of social entertainment or emotional gaiety. A surprising element may occur in a romantic engagement.

Those whose birthday it is may anticipate a happy, successful and pleasant year, with much activity in both business and social life. Elders and friends will contribute to such pleasure and progress, but have an eye to over-extravagance and undue outlay of finances. A surprising romantic adventure is in store.

A child born on this day should have an all round happy and sociable nature with much stability of character as well as unusual artistic talents and graces.

Baseball players are likely to wear helmets next year. In fact, the only sport that will be played without protection is chess—and players of that sometimes get hurt by wild kibitzers.—Boston Globe.

## OVERLY FAT DECEIVE THEMSELVES

Too Much Fat—Too Much Food, Says Clendening

By LOGAN CLENDENING, M. D.

I am in receipt of a very pathetic letter from a reader. It seems I have hurt her feelings by saying that "fat people are lazy." A dear friend of hers "who hap-

Dr. Clendening will answer questions of general interest only, and then only through his column.

pens to be what is termed fat" said her doctor had attributed her excess weight to organic trouble, as she certainly is not lazy and eats lightly.

Well, I don't want to hurt anybody's feelings, but the fact remains that people who talk like that are kidding themselves. They may not appear lazy because they move around in quite lively fashion at times. But most of the twenty-four hours they are very, very quiet. They have to be, because it takes real courage and effort to move all those pounds around.

Their idea that they eat lightly and do not eat as much as other people is also faulty observation. Whether they eat as much as other people or not, they certainly eat too much for their own bodies and the amount of activity they display.

You really can't get away from

the mathematical fact that fat comes from food. And if you have too much fat, it is because you have eaten too much food. The obese patient is in what the nutritionists call positive energy balance. The fundamental reliance in the treatment of all types of obesity is "the first law of thermodynamics"—that is the law of the conservation of matter.

Overweight people often think they eat less than others, but they are fooling themselves. They say they just peek at food, but they peek all day long or else eat the most concentrated nourishment.

So far as thyroid disturbance is concerned, it is true that thyroid extract will burn off some fat, but most of the endocrinologists I know use this sparingly. They burn off some at the beginning of treatment to give things a start and then rely on the diet. As far as organic trouble is concerned, I know of no organic trouble in an overweight person that is not helped and improved by a reduction in weight.

But if an overweight person really thinks, in spite of the evidence, that he or she eats less than the normal person, let us put it to the proof. Put them on the reducing diets published these weeks, let them take just the amounts specified, no more, and not any

extras, no bites in between meals, no cocktails or ale or beer to brace up on, no candy, and no glass of milk and cream at bedtime and see how they come out.

## QUESTIONS AND ANSWERS

Reader:—"Must a child have the mumps and whooping cough. Can they be inoculated to prevent these diseases?"

Answer: For whooping cough a preventive vaccine, developed by Sauer, has been used with considerable success. I certainly would recommend it for anyone who feels inclined to use it, although I do not believe it is successful enough to make its use compulsory in schools. For mumps no preventive has been successful.

EDITOR'S NOTE: Dr. Clendening has seven pamphlets which can be obtained by readers. Each pamphlet sells for 10 cents. For any one pamphlet desired, send 10 cents in coin, and a self-addressed envelope stamped with a three-cent stamp, to Dr. Logan Clendening, 235 E. 45th st., New York. The pamphlets are: "Three Weeks' Reducing Diet," "Indigestion and Constipation," "Reducing and Gaining," "Infant Feeding," "Instructions for the Treatment of Diabetes," "Feminine Hygiene" and "The Care of the Hair and Skin."

## How To Relieve Bronchitis

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender, inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you will have your money back.

## DRESS DESIGNER INSPIRED BY TEMPO OF THE TIME

Left, gold lame evening dress; center, British tweed suit; right, dahlia red lace dinner dress.

Mainbocher's winter collection was inspired by the Tempo of the Time. The designer believes that this season, more than ever before, women must have the right dress for every social occasion. Style notes of his showing are the long torso, new suppleness, simple sleeves, rounded shoulders, and girdles replaced by dressmaker details. His evening gown, left, is of gold lame with green overtones. The fitted bodice is in a deeper tone of the same material, emphasizing slowness of waist and hips. The bodice is softly draped and the skirt ends in a slight train. A narrow lame belt crosses in front and ties in a bow in back. The suit, center, is made of British tweed and has a hip-length jacket in Irish green, with little boy collar and draped pockets. The skirt is black tweed. Right is a dinner dress in dahlia red lace with soft gathers over the bosom, the full gathered skirt emphasizing the fitted torso, the full sleeves cuffed at the wrists, and a corsage of red dahlias caught in the belt.

## Today's Pattern

FAVORED YOUNG PRINCESS DRESS 4904

On the "must-list" for the younger set—the Princess Model Pattern 4904 by Anne Adams has the smooth princess lines so flattering to young figures. The two center panels in the front are cut on the bias—very effective when striped fabric is used. There's a straight, top-stitched yoke that buttons cleverly in front, an optional round little collar. Little sleeve tabs are button-trimmed to match, if you like. You might make these tabs and all four panels in the front of a different shade for attractive color contrast, and omit the collar. Both versions open at the back and may have long sleeves. So charming and simple a pattern would be appropriate either for school or party wear, depending on the fabric you choose. Order it today for sewing success!

Pattern 4904 is available in girls' sizes 6, 8, 10, 12 and 14. Size 10 takes 3 1/2 yards 35 inch fabric. Send FIFTEEN CENTS (15c) in coins for this Anne Adams pattern. Write plainly SIZE, NAME, ADDRESS and STYLE NUMBER.

## 4-H Club Members Are Given Awards

LISBON, Oct. 13—Rev. James Wyker of North Jackson spoke on "It's More Fun In The Country", in addressing the annual banquet of the Columbiana County 4-H clubs held in the Christian church here Saturday evening, attended by approximately 120 club members and advisors.

Rev. Wyker referred to the many home-made recreations and pleasures of the youth in the country which are not known to the city youth, and which makes a lasting impression—through the rural social life. He also cited the independence of farm life with its variety of chores which develop initiative, and also dwell on the part of the farmer in feeding the world, a part in which there is a certain feeling of satisfaction.

County Agent Floyd Lower presided as toastmaster, and awards to state fair winners and 10 year members were made by Joan Strausbaugh, assistant county agent while Miss Erma Ramseyer, was song leader.

Delegates to the 4-H Club Congress in Columbus, John Kelton, Dorothy Votaw, Evelyn Jean Lipp, Alice Thompson, Rita Clair Pottorf, Jane Stamp, Zada Farmer, and Kenneth Seibrell, with Mrs. Blanche Stutz as advisor, put on a short skit in which they made a report on congress activities.

Two Columbiana county teams and two individuals who won demonstrations at the Junior State fair were presented with "blue ribbon awards." The winners are: Rita Clair Pottorf and Jane Stamp; Helen Wernet and Sara Ann Finnegan; Marjorie Ferguson, and Kathryn Gruber.

Ten year members who were also honored with gifts of beautiful vintage cases, are Dorothy Saviers, Louise Buhecker, Zada Farmer and Evelyn Jean Lipp.

Captured Ex-convict Says He Was Involved In Shooting Sept. 28

(Continued from Page 1)

before the slaying. Their statements said they refused.

When confronted with all this information, Penney admitted the shooting and related this story, Thompson told reporters.

Penney and Anderson entered the swank country club apartment the night of Sept. 28, turned off all lights, found a closed door on the second floor and heard someone inside snoring.

"Anderson used something to knock the panel out of the door," Penney said in his statement. "Anderson then opened the door and I went into the room with him."

"There was a bunch of screaming and scuffling before I got in and as soon as I got in the room something hit me on the chin. I got knocked down and when I got up and started through the door someone grabbed me by the arm. I hit the person with the gun my hand and it went off. Then the shooting started."

After the shooting, Penney said, he and Anderson went into a bedroom and saw a woman, apparently Mrs. Miley, sitting on the side of the bed and asked her about the money. She told them it was in a drawer. They found a paper sack and a cloth sack containing \$120,000.

## TONY SHEEN OPENS SERVICE STATION

Invites Public To Visit His Plant At Woodland And E. State

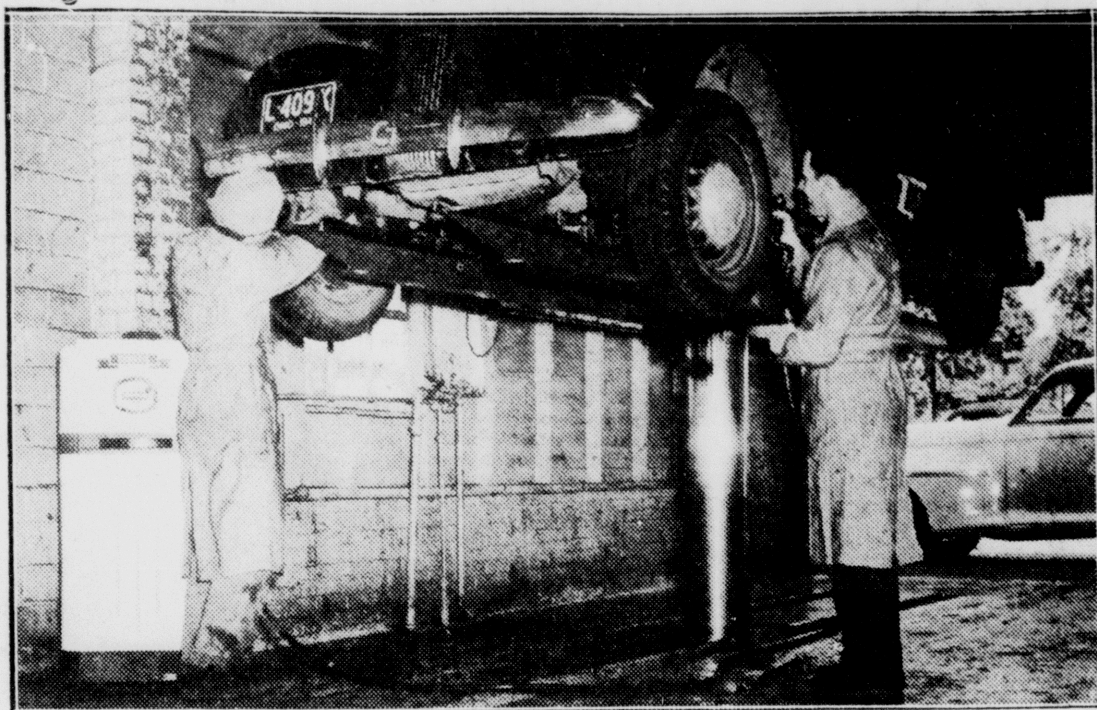

Anthony (Tony) Sheen opened the Sinclair Service station at E. State and Woodland last Friday with all new stock and everything made spick and span. Tony has already had the pleasure of serving many of his friends and makes the general public to stop in and look around or for any service they would expect to find in a modern service station.

Special products will be handled, including many of the small items such as lighter fluid, kerosene, household oil, fly spray, etc.

Chewing gum, ice cream, soft drinks, cigarettes and other articles of special interest to a neighborhood service station will be on hand at all times.

The very latest in lubrication equipment, several hundred dollars worth, is on the way and will be put in service at once.

## It's Time For Oil Change, Say Pennzoil Experts

Howdy Fowler, with the lubricating gun at the right, and Stanton Trimmer, inspecting the brakes, at the Pennzoil Service Center, W. State st. and Jennings ave., make a team that just don't miss a thing when it comes to lubricating cars.

In fact, this station is much better equipped than many and this equipment, in the hands of such conscientious workmen, is certain to result in the very best of work. Howdy says: "It's time now to change over to winter grades of all lubricants. A lighter grade oil will cause easier starting, saving a strain on the battery, and at the same time lubricate before damage is done which is liable to happen with a heavy grade summer oil in the crankcase."

McKEESPORT, Pa. — A cut-rate sale of darts has left in its wake many a sore spot among the citizens of this community. When a local merchant decided to cut the price of the feathered weapons from five cents to a penny, business boomed. The result was promiscuous target practice with citizens as the targets.

Dorothy Lamour and Jon Hall, both of whom gained movie prominence in roles as South Seas island natives, are the romantic native lovers in "Aloma of the South Seas", technicolor film at the State tonight and Tuesday.

Lynne Overman, Philip Reed, Katherine deMille, Fritz Lieber, Dona Drake, Esther Dale and Pedro de Cordoba are in the supporting cast.

Betrothed as children in native rites, Aloma and the native prince are separated for many years while he is educated in America. When he returns to the island as king he finds it overrun by unscrupulous natives, trafficking in liquor. His efforts to win the love of the girl his people want him to marry according to the betrothal vows

## Churchill Removal German's War Aim

BERLIN, Oct. 13.—Removal of British Prime Minister Churchill Foreign Secretary Anthony Eden and their collaborators was described by authorized sources today as one of Germany's war aims. Answering foreign rumors of German peace feelers, these sources said:

"The fuhrer has stated that a clear military decision will be obtained against England."

Elaborating on this statement, the sources added:

"Only after arms have spoken and Churchill and Eden have been removed by the English people themselves will the time have come for peace feelers—but they won't be German feelers, they will be solely and exclusively English."

Reports of impending German armistice offers, the sources said, were launched deliberately by the British press over the certain defeat of their Russian ally and the removal of their last prop on the European continent.

By pretending that Germany is showing signs of weakness, the British government hopes to raise the morale of the English people, they declared.

## F. D. R. Seeks Enactment Of Lend-Lease Measure

WASHINGTON, Oct. 13.—President Roosevelt sought today to expedite enactment of the \$5,985,000,000 lend-lease appropriation at a conference with congressional leaders and administration executives.

He called in the congressional "big four"—Vice President Wallace, Senate Majority Leader Barkley (Ky.), Speaker Rayburn (Texas), and House Majority Leader McCormack (Mass)—for a general discussion of the legislative situation.

Presidential Secretary Stephen Early said the group was summoned for a "lend-lease discussion with the objective of facilitating as far as possible the passage of the bill by the senate."

## Meter Mystery

TITUSVILLE, Pa.—Titusville officials couldn't understand how a quarter got in a parking meter designed to take nothing larger than a nickel. But police officer Andy Waid had the answer.

A motorist asked Waid for change for a quarter. The officer did not have the change, but he did have the key to the parking meter. So he unlocked the meter, gave the motorist his change, and dropped the quarter into the box.

## FUR COATS READY FOR NEW SEASON

Paris Returns Refreshed, Revitalized Garments To Owners

Fur coat time is just in the offing and women of Salem and surrounding territory who have taken advantage of the storage facilities of the Paris Cleaners will face the season in practically brand new garments.

At least, that's the way it seems as these coats, stored away at the Paris last summer, come out of their hibernation in tip top condition, bright and clean, revitalized and fortified against the wear of another winter.

In its extensive remodeling program last summer, you'll remember, the Paris erected a large, modern fur storage plant.

New this particular plant does more than merely store. Here hundreds of fur garments and other winter coats, fur-trimmed, were not only stored, but were cleaned, renewed and strengthened, adding seasons of life.

These garments, resting snugly and securely in the Paris storage plant, were protected against moths and other vermin which might otherwise have attacked them during the warm summer weather.

The temperature in the storage plant was kept at the proper, constant level throughout the season, preserving the fabric and fur. As a result, the coats go back to their owners now, practically new. Residue of the first storage season at the Paris indicate a capacity business for the local cleaners in future seasons.

## Touch Control

Set the thermostat in the modern coal-heated home and get just the warmth desired. This thermostat regulates a "coal-flow" stoker which feeds coal to the fire from a hidden bin.

It's the modern and economical way and as well the clean way to burn coal. The Citizen's Ice and Coal company sells, installs and services these stokers, a phone call will give you any further information you may desire.

## Castrillos Open At Metzger Hotel

Opening an engagement today at the Cocktail room of the Metzger hotel are the Castrillos, featuring Hy Baron and his violin, a group which plays classical, popular, rumbas and tangos.

The popular musicians will be heard nightly at the Cocktail room. The trio comprises Hy Baron, who played for 12 years with Maurice Spitalny's orchestra, and four years with Russ Lyons' orchestra; Victor Castrillo, who gave his first recital at the age of 13. He is a native of Nicaragua and can play the violin, mandolin and guitar. He came here at the age of 20 and is now 34.

Joe DeCalso, aged 28, has been playing the accordion for 12 years, and while trained in dance numbers, can play almost any classic from memory.

Baron's musical aggregation has played in many principal cities, including Cleveland and Detroit.

## BELIEVE SEVEN DIE IN CRASH OF BOMBER

(By Associated Press)  
MARCH FIELD, Calif., Oct. 13.—An army B-23 bomber, passing abruptly from desert sunshine into fog and rain, crashed on a mountain pass yesterday. Apparently seven men were killed.

Darkness descended so soon after the accident that the bodies, strewn among wreckage over a distance of 300 yards, could not be assembled and identified. Five bodies were discernible, however, and there was no reason to believe two other men believed on board had escaped.

The 13-ton, two-motored Douglas-built ship, only heavy plane attached to the 1st Pursuit Wing at March field, was returning from a flight to Albuquerque, N. M.

# Leetonia High Gridmen Massacre Mineral Ridge, 45 To 13

## COACH MATHER'S TEAM HANGS UP NINTH STRAIGHT

Score At Will To Outclass Visiting Delegation On Ground And In Air

Scoring at will, Leetonia High's battering ground and aerial attack completely outclassed and walloped a befuddled Mineral Ridge eleven in a game played at the new Leetonia High stadium on Saturday afternoon, 45-13. The game was the ninth straight win for Coach Charles Mather's stalwarts and marked their second home game of the season.

For the third successive game the Leetonia coach used his entire squad in the fray.

Special guests at the game included the parents of the Leetonia team who occupied sideline seats in front of the new bleachers. The guests wore numbers corresponding to the team numerals worn by their sons.

Two tallies by Stumpo in the first period and one each by Mango and Duco in the same frame gave the Mathermen a 20-0 lead at the start of the second when the second string took the field. Duco's tally for the alternates and a score by Thompson for the visitors made the score 26-7 at halftime.

With the varsity again on the field during the third fray, Stumpo skirted end from the 20 yard line for Leetonia's fifth touchdown. Mineral Ridge marked up its second and final touchdown in this quarter on a pass from Polanski to Lane which was subsequently later-

aled three times before the pigskin was toted over the line.

A Mineral Ridge passing attack which bloomed in the final quarter was effectively stifled by Duco who intercepted three of the tosses. Perry and Murphy hung up the final markers for the hosts.

The Leetonia gridmen will be host to the Columbiana Clippers next Saturday.

## LISBON TROUNCES EAST PALESTINE

Scores 20-6 Victory In Tri-County League Grid-Iron Battle

LISBON, Oct. 13.—Lisbon High's grid aggregation, led all the way to down East Palestine, 20-6, in their Tri-County League battle here Saturday afternoon, utilizing a fumble and a blocked kick to score twice in the second half after going ahead 7-0 in the initial frame.

Eason, Lisbon halfback, broke through left tackle on his own 35 and raced 61 yards to the East Palestine four, and one the next play went through for that first marker. Silage hit center for the extra point.

Two long passes, Borelli to Madden for 37 yards and Borelli to Schmidt for 27, set up the East Palestine touchdown in the third quarter. Fullerton carried the ball over from the five in two plays.

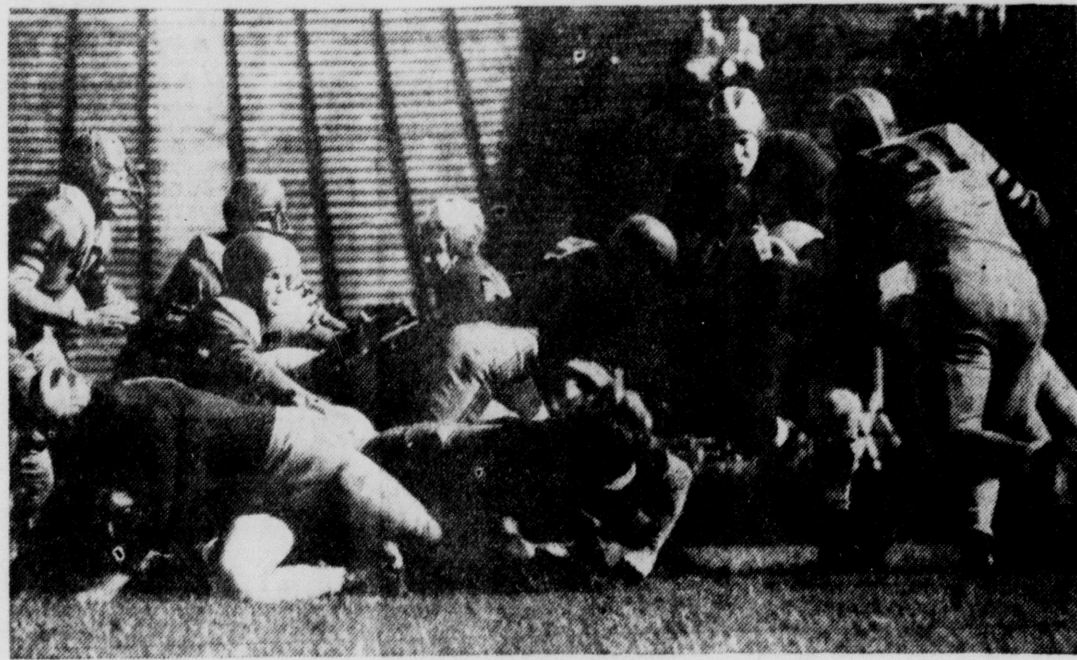

Later in the frame Evans recovered a Palestine lateral on the visitors' 10. Eason knifed to the four and Evans carried it over for Lisbon's second marker. F. Dillard plunged for the extra point. Burrell brought in a blocked kick on the Palestine 15 in the fourth quarter and Eason tallied from the 11.

Lisbon: D. Dillard, RE, Schmidt, Kaufman, RT, C. Wade, Apple, RG, Roberts, McDevitt, C, Wile, Burrell, LT, Corby, Cook, LT, Sutherland, Fife, LE, Madden, Evans, QB, Smith, Eason, RH, Wade, Filage, LH, Fullerton, F. Dillard, FB, Borelli, Lisbon 20 7 0 3-20  
East Palestine 0 0 3 0-6

Touchdowns—East 2, Evans, Fullerton. Points after touchdowns—Silage, F. Dillard.

Substitutions—Lisbon: Baker, Wallace, Berry. East Palestine—Lindsey.

## Michigan Routs Former Mighty Pitt Panthers, 40 To 0

Westfall, Michigan fullback, is tackled by Bengtson (21), Pittsburgh right tackle, after carrying for a six-yard gain as the undefeated Michigan eleven crushed the Pitt Panthers, 40-0, in their game at Ann Arbor, Mich. Pitt held the Big Ten title contenders to 6-0 at half time, but Michigan pushed over two touchdowns in the third period and three more in the last quarter.

## PAUL BROWN GETS FIRST TRY AT BIG TEN; MEETS PURDUE

New Coach To Send Bucks Against Former Massillon High Players Saturday

COLUMBUS, Oct. 13.—Purdue's invasion of Ohio State for Coach Brown's first Big Ten game as coach of the baffling Bucks headlines a 21-game grid menu being dished up for Ohio college fans next weekend.

The Bucks and boiler-makers have met eight times, Ohio winning the first six by outouts, dropping the seventh 12 to 0, and taking last year's contest, 17-14 on a disputed placekick. Ohio has scored 134 points to Purdue's 26 in the series.

Some of Massillon High school's recent stalwarts will stack up against each other in the affair, expected to attract more than 60,000 fans. Purdue will present Jim Miller, guard and co-captain, and Fullback "Rocky" Snyder, both of whom played for Brown at Massillon, while Ohio will have among its first stringers End Charley Anderson, Guard Linn Houston and Center Earl Martin, also proteges of the Buck coach while a high school mentor.

While the Bucks or making their Big Ten debut for 1941, the state's other colleges will present an outstanding unevenness. Among the top-notch attractions are Kentucky at Xavier as the pace-setting Musketeers celebrate their homecoming; Marietta's attempt to upset Wittenberg's Ohio conference and state champions in a Friday night game, and Case at Wooster in a clash of undefeated squads.

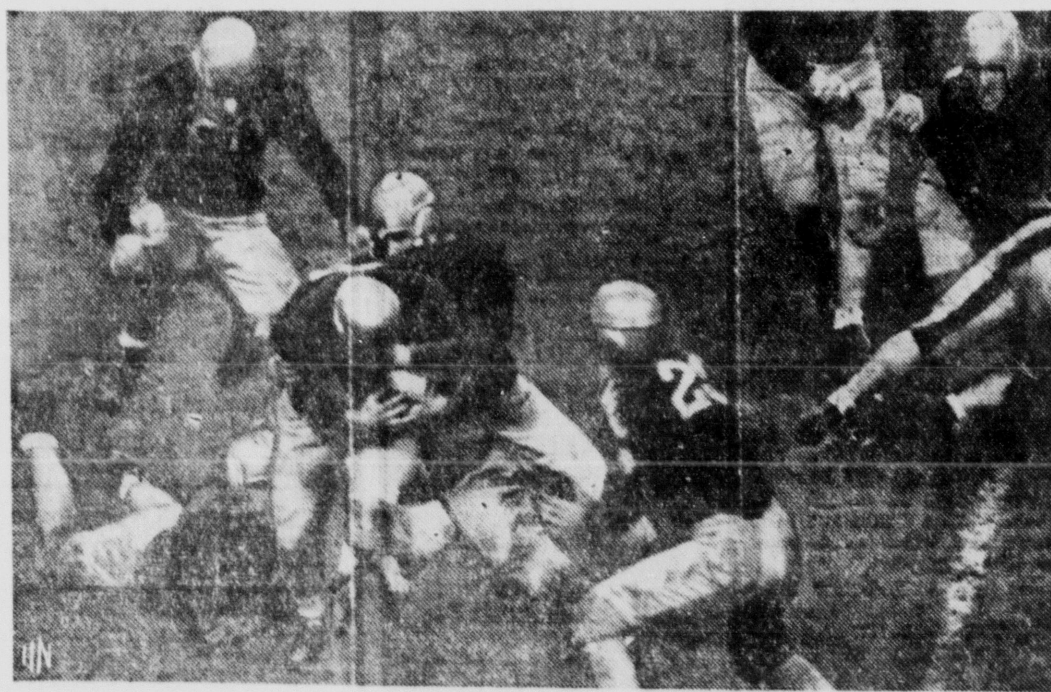

Xavier took over the state leadership yesterday by trimming John Carroll 35 to 0 for its fourth straight Musketeeer conquest, the scoring leadership at 149 points going along with the win. Eight teams suffered their first defeats of the campaign over the weekend, and Wittenberg emerged with the only unscathed goal line.

The weekend slate:

Friday night: Wittenberg at Marietta, Oklahoma City at Youngstown.

Saturday: Purdue at Ohio State, Ohio Northern at Capital, Musketeeer at Denison, Case at Wooster, John Carroll at Toledo, Heidelberg at Kenyon, Baldwin Wallace at Western Reserve, Ohio U. at Akron, U. of Kentucky at Xavier, Otterbein at Bluffton, West Liberty at Kent State, Miami at Dayton, Centre at Cincinnati, Thiel at Hiram, Franklin Smith (Little Rock, Ark.) at Wilberforce, Ohio Wesleyan at Wayne, Bowling Green at Michigan normal, Oberlin at Hamilton, and Rio Grande at Morehead Teachers.

## As Duquesne Romped Over Manhattan 26-7

Bernie Semes, right halfback on the flashy Duquesne eleven, is stopped on an off-tackle play by hard-driving Manhattan opposition. But the shifty Semes managed to run the Jaspers ragged in the plays which followed and personally carried over three touchdowns for a 26-7 victory for the Iron Dukes in New York.

## PRO FOOTBALL IS GOING ALONG ON USUAL SCHEDULE

Amateurs Stage Upsets But Pros Play According To Predicted Ability

By TOM SILER  
CHICAGO, Oct. 13.—Football and upsets go together like ham and eggs—except in the National Professional league.

The 10-team circuit is rapidly nearing the halfway mark in the title race, but there has not been a single reversal of form in 20 games played. Upsets may yet enliven the scramble, but so far the Chicago Bears and New York Giants have managed to brush aside all opposition with comparative ease.

The Chicago Cardinals, who whipped the Bears last season, got all steamed up for Sunday's game, but it availed them nothing. The talented Bears mercilessly smashed their municipal rivals in a 53 to 7 victory before 34,668 spectators.

The Giants, undefeated like the Bears, notched their fourth successive victory at the expense of Philadelphia, 16 to 0. A crowd of 30,482 greeted the Giants on their home debut.

Green Bay's still dangerous club jolted Brooklyn's fading title hopes with a 30 to 7 victory. Detroit, without a victory in three games, finally found the combination for rookie Coach Bill Edwards with a 17 to 7 triumph over Cleveland. The Rams were handicapped by the absence of the injured Parker Hall.

Pittsburgh, the only team in the loop which has lost every start, bowed to Washington, 24 to 20, the Steelers' magnificent rally going for naught.

The standings and schedule:

PETE KMETOVIC, STANFORD'S FLEET HALFBACK—ONE OF THE BEST IN THE NATION

## Breezy Briefs Of Sport From Brietz To You

BY HUGH FULLERTON, JR.

NEW YORK, Oct. 13.—At least there were two football predictions for the past weekend that came out 100 per cent right.

One was issued from Oregon State headquarters to the effect that something awful would happen to the "T" formation bandwagon on the first Stanford rap into a good run and a good team on the same afternoon.... The other was the southwesterners' forecast that Texas A. and M. would be coming up to its first conference game next Saturday without going through a real test.... From a perch on the end of a body cracked limb, we conclude that the week's fastest tumbler, were Tulane, Marquette and Holy Cross. The stillhave-its seems to be Duke, Minnesota, Northwestern, Texas, Clemson and Navy.... And how about the Chicago Bears for the Rose bowl?

Today's Guest Star  
Nixon Denton, Cincinnati Times-Star, whose southern Ohioans who a few years ago were wout to label Larry MacPhail dumb will be interested to learn that the Brooklyn Dodgers, which owed more than half a million dollars when MacPhail took over, now are free from debt and have money in the bank. Of course, there's one liability. They still have MacPhail along with it.

Rudd Davis, crack Louisville bowler, recommends milking cows as training for spilling tears. He says it develops the grip.... The Stillwater (Minn.) prison baseball team is looking for a new catcher as the incumbent's contract is about to run out.... George Eastment, track coach at Bishop Loughlin High school (New York) missed his first meet in 14 years Saturday while attending the wedding of one of his old runners.... Al Reba, Michigan City (Ind.) featherweight who caused quite a stir in Florida a couple of years ago, is about to start a comeback.

Today's Guest Star  
Nixon Denton, Cincinnati Times-Star, whose southern Ohioans who a few years ago were wout to label Larry MacPhail dumb will be interested to learn that the Brooklyn Dodgers, which owed more than half a million dollars when MacPhail took over, now are free from debt and have money in the bank. Of course, there's one liability. They still have MacPhail along with it.

Contributors' Corner  
Correspondent Walter W. Foley, Jr., of Jamaica Plain, Mass., seems to have something.... After surveying early results from his sector, he wrote as follows: "I'm convinced that our revolutionary fore-

Last Laugh  
When Gus Geiges of Philadelphia went on the field to referee the Scranton-St. Anselm game, a player asked him to hold something and handed over a wrist watch. The next brought a ring and another a medal. When the fourth one came along, Geiges resigned as property custodian.

He handed Gus his upper false teeth.

## Here and There -- About Town

**Wins Place In Chorus**  
Miss Marjorie Elizabeth Brian, 1265 E. State st., has been chosen for membership in the Wilson college Freshman chorus. Miss Edith Thompson, professor of voice, announced today.

One of five Wilson music groups, the chorus includes not only girls who are making music a definite part of their college course but also those who are interested in choral singing as a leisure-time activity. Two programs are presented each year, the first just before Christmas vacation and the second in May.

Miss Brian will sing alto in the chorus, which this year has an enrollment of 70. She is the daughter of Mr. and Mrs. J. H. Brian.

**Children Give Program**  
Mr. and Mrs. Otto Thorpe and 15 youngsters from the Christian church children's home in Cleveland presented the program at the morning service Sunday school in the church here. Mrs. Thorpe, matron of the home, discussed the activities of the children and told of the work done with funds from the redemption of sales tax tokens in providing college educations for young people of the home.

The group was entertained at a chicken dinner Sunday afternoon at the home of Mr. and Mrs. L. B. Harris on E. Third st. by the Sunday school. The tables were attractive with Halloween decorations and favors.

**Recent Births**  
Mr. and Mrs. Clarence Kubler of 152 Wood st., East Palestine, are parents of a daughter born Saturday afternoon in Salem City hospital.

A son was born Sunday morning in City hospital here to Mr. and Mrs. Edward Craig of Berlin Center.

Mr. and Mrs. William Trotter of R. D. 1, Columbiana, are parents of a son born Sunday afternoon at City hospital.

**Hospital Notes**  
The following are patients for medical treatment at Salem City hospital:

Philip August Hepp of Wellsville; Ray C. Miller of Columbiana; Mrs. Earl E. Schlundt of East Liverpool; Kenneth Obenauf of Berlin Center; Miss Beverly Ripple of 620 Granite st.; Charles W. Mead of R. D. 4, Salem.

For surgical treatment: Matthew S. Stacey of R. D. 2, Salem.

**Rotary Program**  
Rev. W. B. Dodson, pastor of the Melrose Baptist church at Roanoke, Va., will be the speaker at the meeting of the Rotary club Tuesday noon in the Memorial building. David Bevan has arranged the program.

**Community Club Meets**  
A large attendance marked the first meeting of the Community club at Guilford school Thursday evening. Lunch was served after the meeting and program by the committee.

**Hearing Is Ordered**  
Ethel B. Halk, Lake Placencia liquor permit holder, was among 33 Ohio permit holders cited today by the state liquor board for an alleged law violation. The hearing was set for Friday.

**Volleyball To Start**  
Joe Kelley today announced that annual fall and winter volleyball competition will begin at the Memorial building tomorrow afternoon at 5. Participants are asked to appear prepared to play.

**Seek Donations**  
Donations of fruit and canned foods to the Christian church children's home in Cleveland should be left at the church not later than Wednesday afternoon, church workers announced.

**Condition Improved**  
P. J. Dean, Perry township trustee who has been ill at City hospital for the past three weeks, has been brought to his home, 59 Perry st. His condition is improved.

**Wins Army Promotion**  
William Silver of Salem has been promoted to the rank of corporal at Camp Wolters, Tex., where he is stationed with Co. D, 52nd battalion, intelligence division.

**Officers Goes To Geneva**  
State Highway Patrolman C. W. Myers today was transferred from the Salem sub-station to Geneva. No replacement here was made.

**Group Will Meet**  
The regular meeting of the Protected Home Circle will be held at 7:30 p. m. Tuesday at the home of Ed Tullis on the Lisbon rd.

## CARJE ON TRIAL IN LISBON TODAY

LISBON, Oct. 13.—Common Pleas Judge Joel H. Sharp today heard the opening state and defense testimony in the case of Theodor Carje, cited by the grand jury for violation of state liquor control board laws.

Charges brought by the state include violation of a Sunday sale statute and interference with officers of the state liquor board. Carje's attorney charged that the officers did not make themselves known and that they were not served liquor, despite their request.

The state announced that five witnesses would be called. They are state agents R. R. Reynolds, L. A. Musser, A. Rutter and Carl Kreinhart. The number of defense witnesses was not named.

## DEFENSE FACTORY IS HIT BY BLAZE

Loss at Massachusetts Firestone Plant May Reach \$13,000,000

(By Associated Press)  
FALL RIVER, Mass., Oct. 13.—A great factory for defense was crippled severely today after a furious and explosive fire which ravaged huge stores of government rubber and equipment for the armed forces at an estimated loss of \$13,000,000.

Firemen from 30-odd Massachusetts and Rhode Island cities sought more than eight hours to curb the blaze, which fed on highly combustible latex and crude rubber in racing through most of the waterfront plant of the Firestone Rubber & Latex Corp. here.

Roger Firestone, head of the firm, said he believed manufacture of gas masks, barrage balloons and cartridge belts could be resumed early next week in mills which escaped the flames.

About 1,000 of 2,600 employees were reported left idle by the conflagration.

Pending an appraisal, the company withheld an estimate of the loss, but a plant executive termed an unofficial figure of \$13,000,000 "conservative."

The flames, generating heat so intense that firemen were unable to stay within effective reach, destroyed five large structures and damaged three others before being controlled after dawn Sunday.

The blaze originated, a workman said, in an oven in a small room on the third floor of a five-story brick manufacturing building where rubber automobile cushions were being heat-cured.

Sped by wind and repeated explosions of chemicals, the flames reached two four-story buildings containing machinery and stocks in process of manufacture and two large warehouses reported to have held 30,000 tons or more of government-owned emergency rubber.

The Federal Bureau of Investigation will open an investigation customary in fires affecting defense industry.

ularities, alien property conspiracies, and the pardoning of Charles W. Morse and Eugene Debs. No convictions ever were obtained. In 1946, Daugherty asserted in one of his rare public utterances:

"What I did . . . was done in the interest of the American people and my action was sustained by the courts. Notwithstanding the abuse I received, I can say now that given the same circumstances I would not change an official or personal act of mine while I was attorney general."

That's a clear conscience for you."

During his term in office Daugherty collected for the government millions of dollars in war fraud and prohibition cases; named J. Edgar Hoover as an assistant in the Federal Bureau of Investigation, from which he later was promoted to director; and established a federal industrial school at Chillicothe, O., because, he said, first offenders should not be confined with veteran criminals.

Daugherty was a graduate of the University of Michigan law school and began his political career in Washington Court House, where he was born Jan. 26, 1860.

Daugherty's wife was the former Lucy Williams, whom he called "The prettiest girl in town." She died in 1924. Their only son, Capt. Draper M. Daugherty, died in 1930. At the bedside, when death came were his daughter, Mrs. Emily B. Rarey of Columbus; his brother, Mal S. Daugherty, a retired Washington Court House banker, and his physician and two nurses.

## YOUNG PEOPLE HOLD MEETING IN LISBON

LISBON, Oct. 13.—Approximately 225 young people, representing the Mahoning presbytery, gathered in the Presbyterian church here Sunday afternoon. Registration, at 1:30, was followed by a worship service conducted by the Canton Presbyterian church young people.

During the afternoon there were eight discussion groups, taking up such problems as "Enlisting and Developing Leaders," "Personal Religious Living," "The Youth Budget," "What Do I Believe," "Building a Christian Home," and "Recreation." The leaders of these included Miss Ann Chapman of New York City; Dr. E. A. Walker, of Massillon; Mrs. W. J. Bean of Canton; and Dr. J. V. Stephens of Alliance.

The dinner was served at 5:30 by the Friendship circle. The program around the tables was in charge of the local group of young people, who transformed the dining room into a ship, using the red, white and blue patriotic symbols, illustrating the theme of the banquet program, "Reaching the Unreached."

Following the dinner, the First Church of Youngstown had charge of the closing consecration service.

## ALBINO COLT IS PRIZED ANIMAL

Columbiana Man Is Owner Of Fine Breed Which Is Prized For Rarity

(Continued from Page 1)

brood mare. Dealers scoured Ohio and surrounding states for months before they located an animal with all the Albino characteristics at Gates Mills.

Mr. Hutson registered the mare then eight years old, as Princess Nardi, and bred her to White Morocco, a high school show horse owned by Ford Camp of Shippensburg, Pa., and billed in public appearances as "the horse of a human mind."

The colt out of Princess Nardi proved true to the strain. Topper has a rose and pink skin covering all over with silky white hair. His hooves too are perfectly white. His eyes are like those of a chimp, being a rich blue and pure white.

When grown she will weigh between 1,000 and 1,200 pounds and will be from 14 to 16 hands high.

So far Topper has been broken only to the bridle. While Mr. Hutson has no definite plans for her as yet, he says that when she is two years old she probably will be trained and gaited for a saddle mare.

**Intelligent Animal**  
Like others of the breed she is intelligent and affectionate as well as beautiful. Albinos are eagerly sought as riding horses for women and for training as performers in circuses and on the stage. Gen. Autry, the singing cowboy, uses a beautiful pair to lead off the parades which feature his rodeos, and a few usually are to be found in the large circuses.

The vision of Albino persons and animals usually is poor because an excessive amount of light is admitted to the eye due to the lack of dark pigment. However Mr. Hutson says there is nothing wrong with Topper's sight. Princess Nardi is blind but her owner says this was the result of an attack of pink eye.

Mr. Hutson's attractive, red-haired daughter, Christine, has caught his enthusiasm for horsemanship and is learning to ride at an academy in Youngstown. She is employed as a fifth grade teacher in the Boardman public schools.

Mr. Hutson also rides occasionally, saddling the Princess for a gentle jaunt near his home, located at the west corner of the limit of Columbiana. He stables his horses in a neat little barn located back of his home.

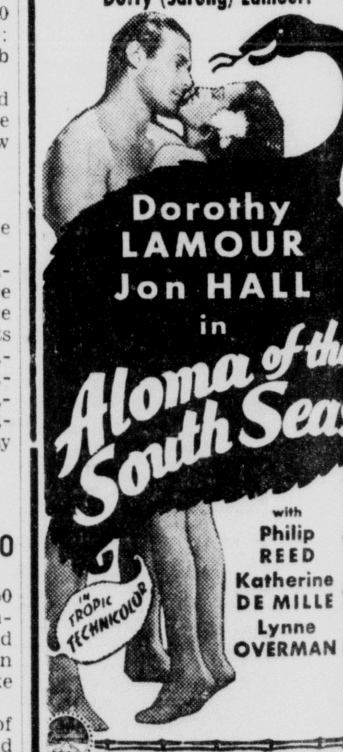

P. S. Princess Nardi is expecting another blessed event next year.
